Course Name: Mobile Computing

Experiment 9: GSM Service User Interface

Aim: To develop a user interface prototype in Figma for a GSM service.

Procedure:

1. Open Figma and create a mobile-sized frame.
2. Add the title “GSM Mobile Services”.
3. Show the GSM connection status and signal strength.
4. Add service options such as Call, SMS, Contacts, and Settings.
5. Include a SIM status indicator and use recognizable icons.
6. Review the interface and save the prototype.

Output:

Result:A user interface prototype for a GSM service was developed successfully.
