Slot: D

Course Code: ITA0330
Course Name: Mobile Computing

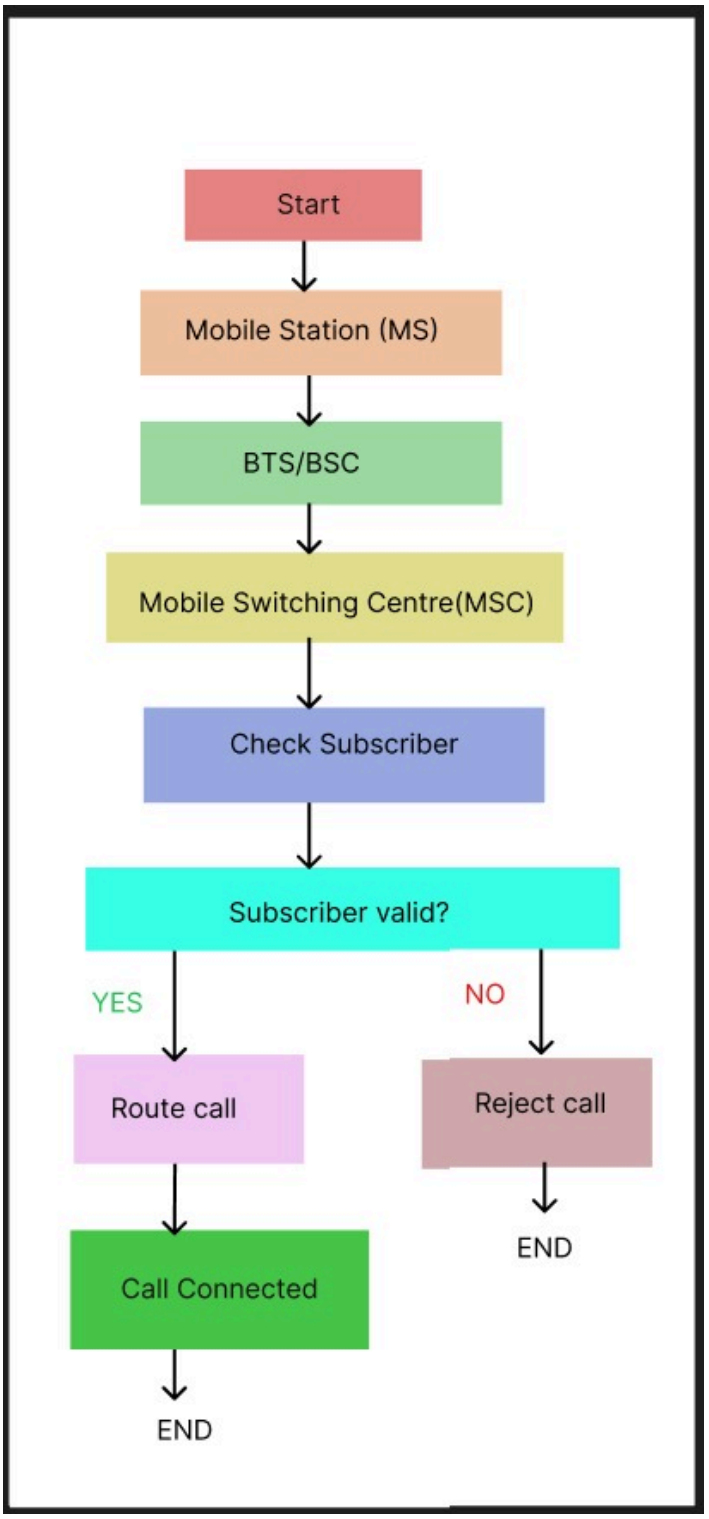

Experiment 3: Network Switching Subsystem Flowchart

Aim: To draw a flowchart depicting the operation of a Network Switching Subsystem in a mobile cellular system.

Procedure:

1. Open Figma and create a new file.
2. Open Resources and search for a flowchart plugin, or draw the shapes manually.
3. Add process boxes for the Mobile Station, BTS/BSC, MSC, and destination network.
4. Connect the steps with arrows to show call setup and routing.
5. Add a decision point if needed to represent call routing or connection status.
6. Align the shapes, review the flow, and save the design.

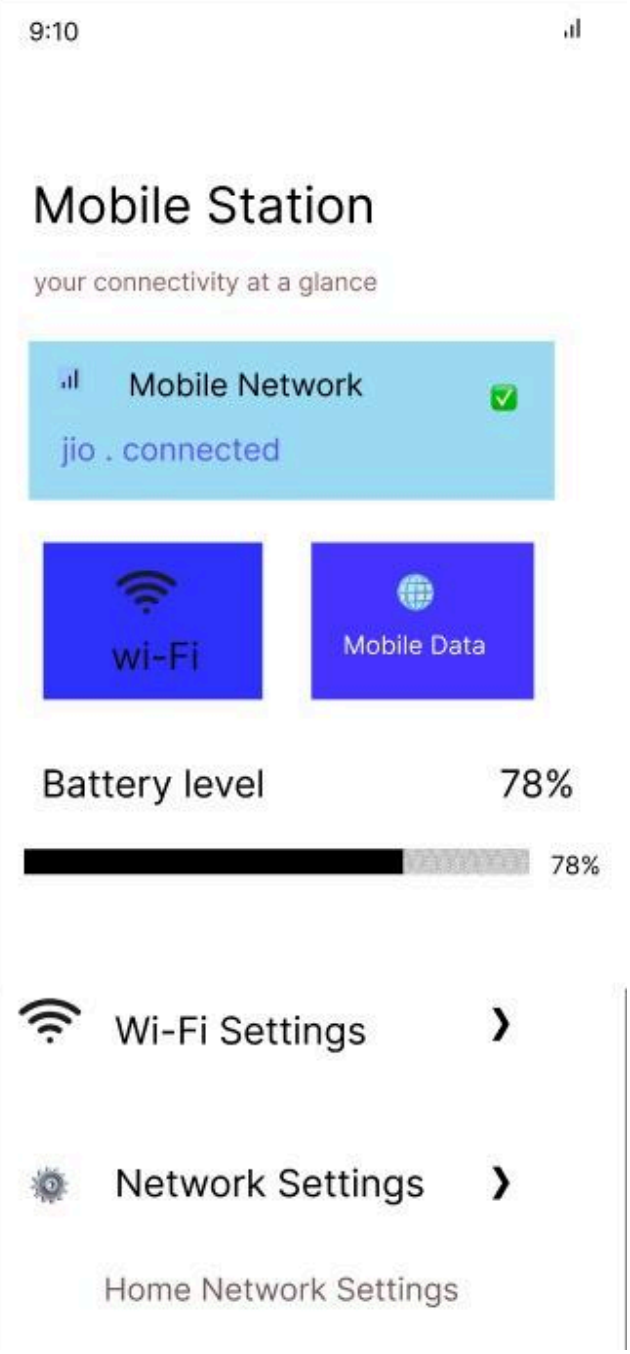

Output:

Result: A mobile station user interface prototype considering connectivity and convenience was created successfully.
