Experiment 6: Mobile Network Handoff Scenario

Aim: To simulate a handoff scenario in a mobile network and visualize the process using Figma.

Procedure:

1. Open Figma and create a new file.
2. Create a frame showing a mobile station moving between two cells.
3. Draw Cell A and Cell B with their base stations.
4. Show the mobile station initially connected to Base Station A.
5. Use arrows and labels to illustrate signal weakening and transfer to Base Station B.
6. Review the sequence and save the handoff visualization.

Output:

Result: A handoff scenario in a mobile network was simulated and visualized using Figma.
